Panamá, Panamá

MISSION

The Panama Tropical Research Institute aims to provide students with a unique, hands-on educational environment that encourages independent initiative and innovation. Through fostering student We serve as a research and development incubator for establishing best practices in sustainable development. It is our ultimate goal to provide sustainable solutions that can be replicable in our modern cities as we move towards creating more sustainable solutions.

CURRICULUM

At PTRI, we utilize the flipped classroom approach, where 40% of time is spent in the classroom, 60% is spent conducting independent research. Flexibility and student independence are at the forefront of our teaching methodology, providing students with multiple opportunities for how they want to spend their time at PTRI. Each student will participate in the four curriculum components during their 10 weeks in the jungle, opting to receive course credit or internship hours from their work:

Curriculum Components

1. Academic Programs
2. Sustainability Workshop Series
3. Self-Directed Study
4. Research Assistantship with Faculty

We host three semesters annually:

- Spring (Jan-Mar),
- Summer (May-Jul)
- Fall (Aug-Oct)

ACADEMIC PROGRAMS: Spring 2023

Tropical Agriculture
Biology
